JOB EXPERIENCES

Technical Support Engineer 2020 - 2023

- Resolved complex technical issues for clients, utilizing strong problem-solving skills to diagnose software and hardware problems remotely and on-site.

- Implemented multi-factor authentication (MFA) protocols across company systems, reducing unauthorized access incidents by 40%.

Software Development Intern 2017 - 2020

- Collaborated with a cross-functional team to integrate new features and resolve critical bugs, ensuring timely project delivery.

- Utilized version control tools like Git to manage codebase and conducted thorough code reviews to maintain code quality standards.

EDUCATION

Bachelor of science in computer science Karatina university

K.C.S.E Maagenka Secondary AGP 62(B)

K.C.P.E Wiru Primary School 350 Marks
